About Aleksander B

My name is Alex and I am an Automation Engineer at EL Engineering Consultants for a couple years now. Looking to make the next step and move out of my family home. I try to maintain a healthy lifestyle and keep my surroundings in good shape at a minimum of leaving them as they were found. I possess stable employment which I do not plan changing in the nearest future and positive references from previous employers highlight my reliability and the drive to maintain a healthy environment at my workplace and in my personal life. With a focus on personal achievements and a desire for a harmonious living situation I am an ideal candidate for a rental property.
