About Syed Asad A

We are a family that likes to explore various cities and countries and this has taken us from the plains of beautiful Linköping to the dusty mountains of Mianwali, from the hustle of Dublin to the calmness of Trondheim. Now we want to settle down and we find Ireland to be most attractive. We have found Cork to be ideal for our needs. We are a family of five with three kids, aged 12, 10 and 3. All kids are very well behaved and keeping our dwellings clean and tidy is a top priority for us. I work in Analog Devices (ADI), a large tech company with over 25000 employees worldwide, as a Staff Design Engineer in the area of Digital Chip Design. ADI is in the Cork Airport Business Park.

Syed Ehsanullah J

Syed Asad Alam and I our cousins and were born the same year. We really started knowing each other when we both were 10 years of age. We both grew up together and would regularly meet during family events and hence have known him throughout his life. He first moved to Dublin in 2019 and he and his family lived in my apartment for a few days before he moved to his own rental place. All through out his stay in Dublin, I have always found him and his family to be very conscious of keeping their house clean and tidy. His kids are also very well behaved and actively help their parents keep their house in an immaculate condition. I am happy to recommend Syed Asad and I believe he would make a very responsible tenant for any landlord. If you wish to verify this reference or have any questions in this regard, please feel free to contact me. Regards, Syed Ehsan Ullah Jawaid

-

Other relevant personal information

My wife has a Bachelors in Zoology and will be looking for various opportunities in Cork, including furthering her education to establish her career. She also has the right to work in Ireland. Personally, I have done my engineering from Pakistan and Masters/PhD from Sweden. Currently working as a Design Engineer in Arm Ltd. in its office in Trondheim, Norway. Arm is a leading British company headquartered in Cambridge.
